Our experts offer a diverse range of in-house services, including art consultation, custom framing, restoration, appraisal and valuation, complete installation, fine art printing and in-house art creation.

We act as a resource for contractors, project managers, designers, and decorators, helping them select artwork for each project. With decades of gallery & consulting experience, we can help guide clients to artwork that perfectly fits their taste and project.

ART PURCHASING & INSTALLATION

We work directly with artists, galleries, and vendors to manage purchasing, framing and installation. Our expertise and experience allows us to advise on protecting and maintaining artwork once an installation is complete.

Our staff is trained to provide art authentication, valuation and appraisal services for clients who own or purchase artwork of any origin. Our certified appraisers provide accurate valuations of art pieces for insurance, resale, or estate planning purposes.
